Wall-street, Merchants' Exchange, New-York: J. N. REYNOLDS, Wall-street. (O.H. Plaart. ELF-PROTECTOR—We were much gratified yesterday by seeing a Pocket Pistol, perfectly simple in its construction, and at the rame time effective. It was of a portable shape, and could be discharged six times in a few seconds. By pulling the trigger only, it would cook and discharge at the same time. The objection heretofere againgt the Repeating Arms was their intricate complication of machinery, which made them liable to get out of repair, and some times dangerous to use. But this Pistol is certainly the best weapon of defence we have ever seen. The Self-Protector or Contingent Friend' can be seen by calling a Balen's, 10 Broadway. For Trustelers, Housekeepers, Planters, Captains and others, it must be a valuable article.
